

## Health & Safety Policy

### Statement of Intent

The management of Network Cars looks upon the promotion of health and safety measures as a mutual objective for themselves and their employees. It also acknowledges its obligations under the Health and Safety at Work Act 1974 and the Management of Health and Safety Regulations 1999.

It is the policy of Network Cars to do everything, so far as is reasonably practicable, to prevent personal injury and damage to property and to protect everyone, including the public, in so far as they come into contact with the company or its activities, from any foreseeable hazard and danger.

In particular, the management recognises its responsibility:

- To provide and maintain safe and healthy working conditions.
- To provide training and instruction to enable employees to perform their work safely.
- To maintain a continuing and progressive interest in health and safety.
- To take into account all statutory requirements for health and safety.
- To consult with and involve employees in health and safety matters wherever possible.
- To ensure a safe environment for all learners or other external parties whilst on our premises.

The management of Network Cars also recognises that its employees have a duty to co-operate in implementation of health and safety policies by:

- Working safely
- Meeting their statutory duties
- Reporting incidents that have led, or may lead to injury or damage.
- Following the health and safety procedures and safe systems of work

The Health and Safety Policy Manual will be revised as often as may be deemed necessary and will take into consideration changes or additions to statutory safety requirements or modifications to our operating procedures. The policy will be reviewed on an annual basis.

The overall responsibility for compliance with Network Cars Health and Safety Policy rests with the Managing Director.
